

27th July 2020

TO WHOM IT MAY CONCERN

This is to certify that on the 06/07/2020 at the request of Mr. & Mrs. I. & D. Locke, Wirruna Poll Herefords of “Spring Valley”, Holbrook, NSW, I pregnancy tested (aided by ultrasound technology) the cattle identified below and confirmed them to be pregnant.

IDENTIFICATION:

20 x registered Poll Hereford cows.

STAGE OF PREGNANCY:

These 20 cows were confirmed to be approximately 35-70 days pregnant at the time of pregnancy diagnosis on 06/07/2020. Their individual estimated foetal ageing and calving date information is as per the Wirruna sale catalogue.

The pregnancies that were within the foetal sexing window on 06/07/2020 had foetal sex determined and this has been included in the Wirruna sale catalogue. All pregnancies will be confirmed as pregnant on 03/08/2020 and the remaining pregnancies will have foetal sex determined on this date and provided as a supplementary sheet on sale day.

Their expected calving dates are between 04/02/2021 and 11/03/2021.

Yours faithfully,

Dr. Shane Thomson BVetBio. BVSc. MAnSc.
